Okochi Naika Clinic celebrated its fifth anniversary in October 2017.

This is the result of the tremendous support from all people, including local residents, many people working in related companies, and our staffs and their family members.

I am sincerely grateful.

Five years have passed since our clinic start, and approximately 15,000 patients including Japanese and foreigners have visited to our clinic, and we have made a lot of efforts in order to provide high-quality medical care and high degree of hospitality services to the patients. However, we are not satisfied with the current state and will continue to make further efforts.

Our aim of our clinic is to help many people and contribute to the social well-being. To do so, there are still a lot of things that we should do.

Although we are a clinic that has been trusted and loved by many patients and local residents for five years, we will continue to strive to become a long-standing clinic loved over the next century. We sincerely ask for your continued patronage with our clinic.

Friday, October, 2017

Chairman and Director  
of Okochi Naika Clinic  
Okochi Masahiro

# Okochi Naika Clinic conducts cutting-edge and specialized medical treatments.

## Advantage equipped a wide variety of medical devices

Carotid artery, thyroid, heart, abdominal ultrasound, arteriosclerosis tests, pulmonary function tests, and microscope examination of aquatic worms (tinea)

## Live endoscopy video viewing service

We can provide a live view of a colonoscopy for your family members. By doing so, we believe that we will be able to eliminate the anxiety of patients and provide them with examinations and treatments with peace of mind, as well as to build even higher reliability with patients and their family members.

## Department of Gastroenterology (Endoscopy)

For those who are busy at work, we conduct gastrointestinal endoscopy not only in the morning but also in the afternoon. Gastric endoscopy and colonoscopy can be performed on the same day, taking into account the patient's time cost and symptoms.

Additionally, in order to alleviate abdominal discomfort during endoscopic examination, we use a CO<sub>2</sub> insufflation.

## Elastography

As an advanced ultrasound examination, we conduct ultrasound examination

assisted elastography that are very useful to determine if the tumor is cancer or not.

## Diabetes department

We see a wide variety of patients, including oral diabetic medication/insulin therapy/incretin therapy/type 1 diabetes mellitus/hypoglycemia/complicated diabetic complications/childhood diabetes/gestational diabetes mellitus (pregnancy with diabetes mellitus),

and we are advising you about appropriate treatment from the perspective of a specialist. In addition, we hold diabetes classes and tasting sessions to provide up-to-date specialist information on a regular basis.

## Other

Examination and specialized treatment of ulcerative colitis and Crohn's disease (drug treatment and nutritional advice)

We are working on treatment male menopausal disorders, treating with refractory ulcerative colitis, chronic hepatitis/familial cholesterolemia, and intractable diseases.

## Strengthening and Practicing Discretionary Medical Care

### H. pylori eradication

New eradication treatments for H. pylori, tertiary or quaternary eradication for H. pylori, and eradication for persons allergic to penicillin.

High-concentration vitamin C infusion/placenta injection

## Practice cutting-edge treatments

Interferon-Free Chronic Hepatitis C Treatment

Lepasa Injection Treatment for Familial Cholesterolaemia

Remicade Treatment for Ulcerative Colitis

## Endocrinology/Thyroid Disease Treatment

Our clinic focuses on thyroid diseases and provides blood tests results for thyroid hormones in about 20 minutes on the same day of your visit. Thyroid diseases during infertility, pregnancy, and breastfeeding are treated specially.

## The Challenge of Advanced Cancer treatments

- Circulating Tumor Stem-Cell Testing (CTC)-Detox, In Research Genetic Cancer Center
- Circulating Tumor Stem-Cell Therapy (SOT-Apoptosis Antisense Therapy)-Detox, Inc. Alliances with Research Genetic Cancer Center
- Advanced cancer immunotherapy (dendritic cell vaccine + activated NK/NKT/γ δT cell therapy)-partnered with the patented Ave, Oncology, and Clinic.
- Cancer Therapy with High concentration s of Vitamin C drip infusion

## Services for Overseas Travelers and Foreigners

### Preparation of medical certificate for overseas travel

Our clinic promptly prepares and issues certificates of treatment, medical examination certificates, and vaccination certificates for people traveling overseas on a trip, business trip, assignment, or study abroad. An English certificate can be issued on the same day if the documentation does not require special blood tests that are necessary to be submitted to an outside blood testing institute

## Travel clinic

Overseas travel vaccines, treatment with altitude sickness, and treatment with traveler's diarrhea

## Multilingual foreign language sites

We always have set up multinational questionnaires (in 18 countries) for foreigners in our clinic, and have put in place a structure that enables foreigners who cannot speak Japanese to receive medical treatment without anxiety.

## Cheap, Prompt Medical checkups/ Mass Medical checkups for company employees

General and hired medical checkups (at the time of joining the company) are carried out at low prices, and in principle, medical certificates are prepared and handed over on the same day. The medical certificate can be delivered in about 30 minutes on the same day.

## Treatment with Chinese medicine if you like

We believe that Kampo medicine can be useful for symptoms and medical conditions that are difficult to cope with without losing the opportunity for treatment by firmly recognizing the superiority of modern medicine (Western medicine). The clinic provides comprehensive insurance treatment with Chinese medicine, Chinese medicine + Western medicine, and only Western medicine. The clinic also provides the best effort treatment from a wide range of perspectives depending on the patient's condition .
